

COMPANY PROFILE

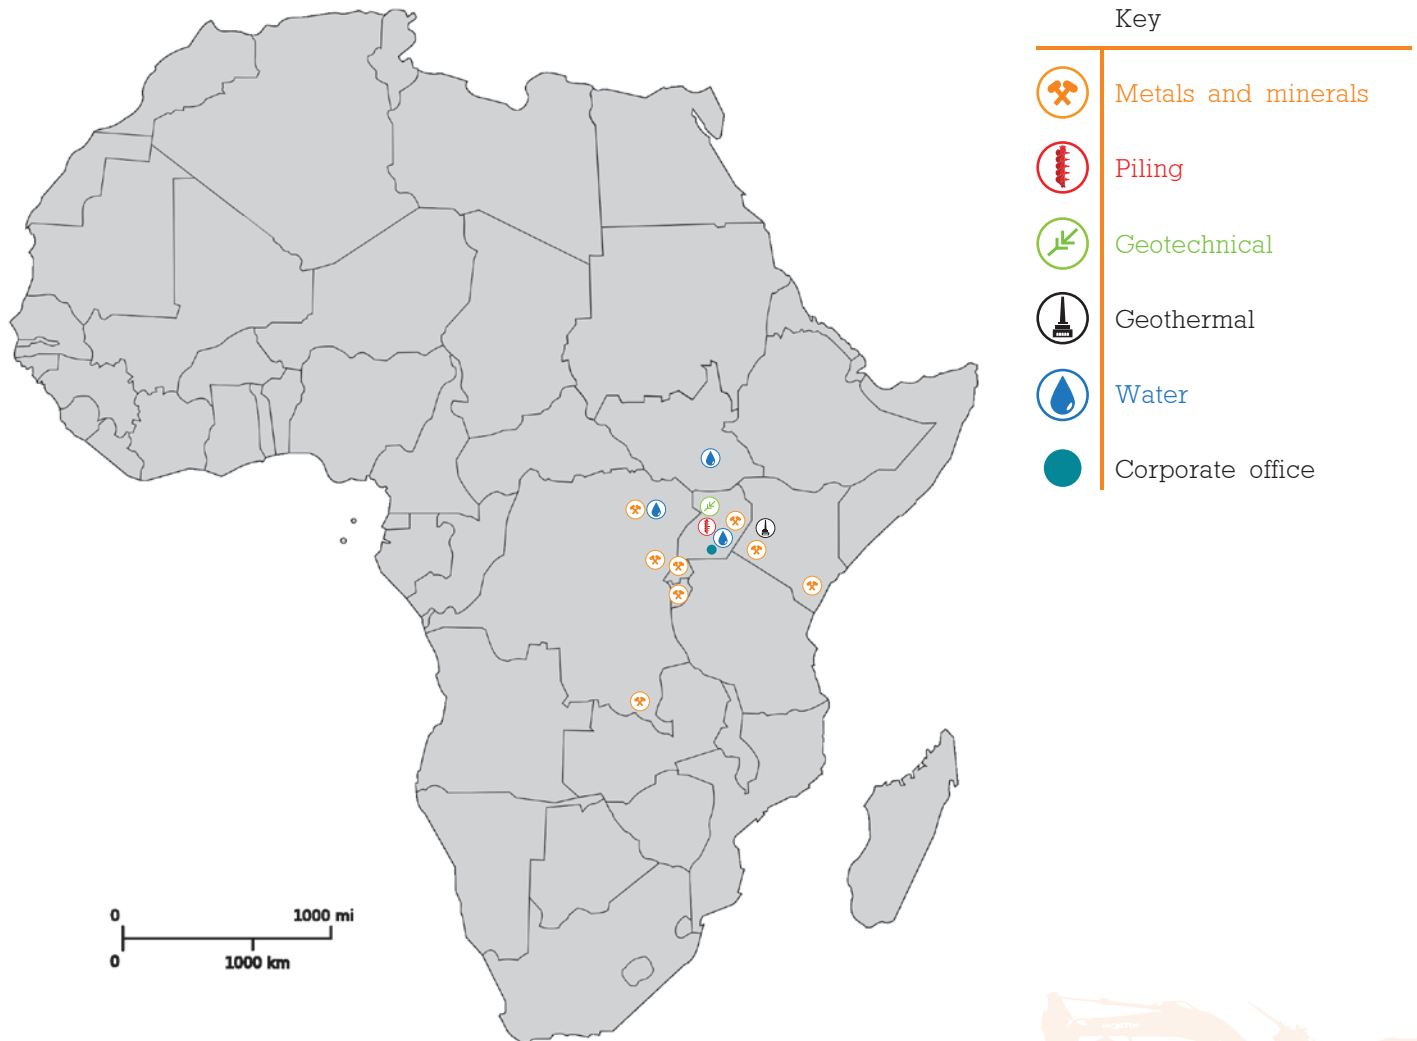

ADT AFRICA

Drilling & Piling Services

ISO 9001 2015

ADT AFRICA IS AN AFRICAN BASED DRILLING AND PILING SERVICE PROVIDER

WHO WE ARE

ADT Africa is a mineral exploration, piling, geotechnical and geophysical investigation, geothermal and water drilling company. In addition the company performs related services including civil, earth moving works both onshore and offshore (dredging), camps and access roads.

Its African based operations support the continents goals of extraction of minerals and water production by providing safe high-efficient drilling services.

We are a leader specifically in East and Central Africa, where we operate one of the largest and most advanced rig fleet and support services. Our focus on state-of-the-art engineering solutions and our expertise covers many drilling areas from high pressure and high temperature drilling to technical limit drilling and directional drilling. Our in-house engineering department modifies existing rigs, ensuring that our equipment delivers exactly what our customers need.

We are ISO certified and dedicated to delivering lower total well costs for our customers by conducting safe and efficient operations, and we continuously monitor and evaluate customer satisfaction and feedback.

Our 90% African born employees are what differentiate us from international competition. Therefore, we invest in the latest training equipment applying the most efficient training methods to ensure that our people are always properly trained to undertake operations in a safe manner.

The logo for ADT Africa features the letters 'ADT' in a bold, orange, sans-serif font, with a small white icon of a drilling rig inside the 'A'. To the right of 'ADT', the word 'AFRICA' is written in a larger, bold, orange, sans-serif font. Below this, the words 'Drilling & Piling Services' are written in a smaller, blue, sans-serif font. The background of the entire page is a faded, orange-tinted image of various drilling and construction equipment, including a large crane-like rig and several smaller vehicles or containers.

ADT AFRICA
Drilling & Piling Services

OUR LOCATION

ADT Africa is headquartered in Kampala with a two acre yard in Namanve Industrial Park. Housing our equipment and a Workshop Center for maintenance of Rigs and fabrication of piling kits.

ADT Africa in brief

- Established in 2004
- Headquarter: Kampala, Uganda
- Offices: Kampala, Doko, Kigali, Juba
- Own and operate 20 rigs
- Employees: we employ around 75 personnel, including contractors.

Mission Statement

To provide our clients with an ISO Certified drilling service, in a safe, professional and equitable manner throughout Africa.

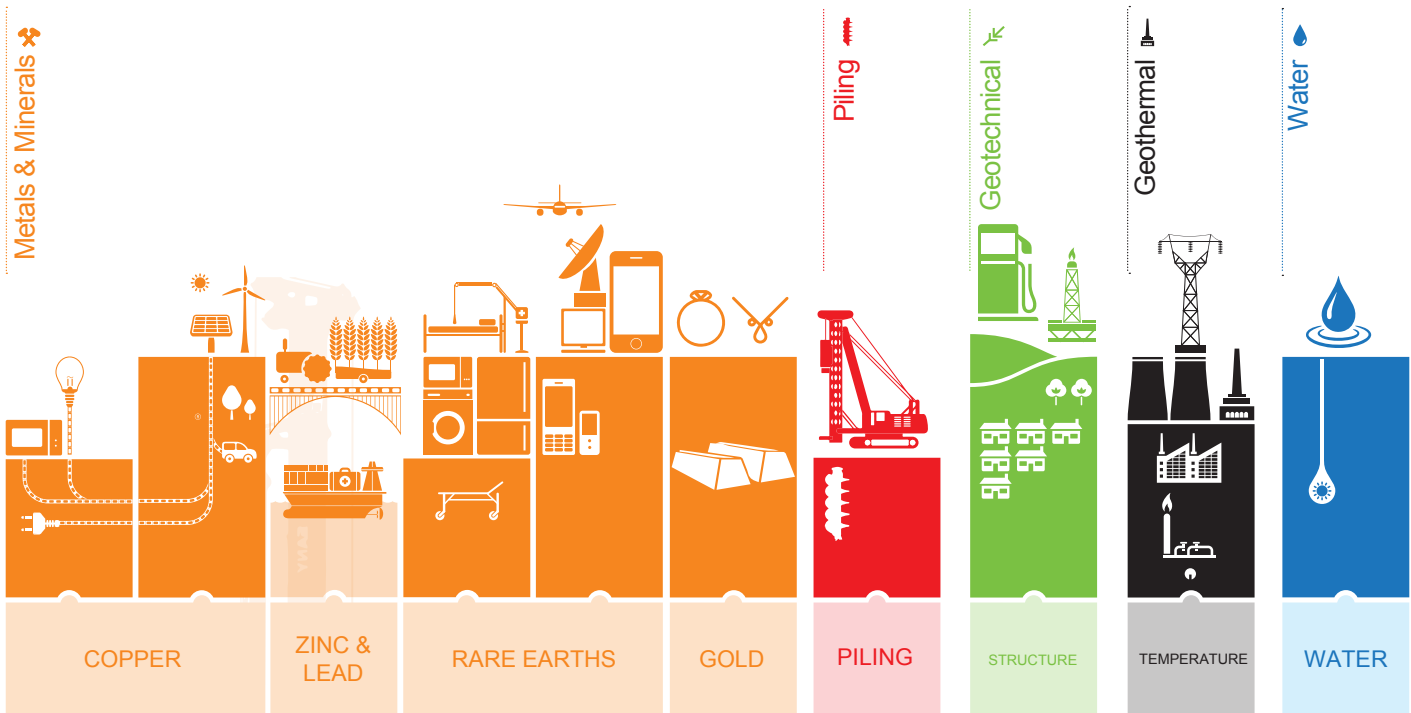

Vision Statement

The leading drilling service provider in the region.

Values

1. Community matters most
2. Value our team
3. Respect the environment
4. Do the right thing
5. Grow together

OUR PRODUCTS IN SOCIETY

Drilling Experience: Copper, Zinc & Lead, Rare earths, Gold, Graphite, Nickel, Iron Ore, Limestone

Drilling Experience: Foundations, Ports, Oil wells, Bridges

Drilling Experience: Buildings, Ports, Heavy Industries

Drilling Experience: Exploratory only

Drilling Experience: Boreholes

ADT AFRICA

Drilling & Piling Services

ONSHORE & OFFSHORE DRILLING

ONSHORE DRILLING

With over 14 years of drilling experience and a modern fleet of onshore drilling rigs, our drilling service business is equipped for all types of drilling such as mineral exploration, piling, geotechnical, geothermal and water drilling.

OFFSHORE DRILLING

ADT Africa provides expert offshore drilling services with 3 offshore drilling rigs and a dedicated work force with strong emphasis on safety.

PILING

STRONG FOUNDATIONS FOR A BETTER FUTURE

- Servicing East and Central Africa’s civil construction, Ports, Oil and Gas industries to pile strong foundations with our MAIT HR 180 based out of Namanve Industrial Park, Kampala, Uganda.
- MAIT HR 180, known for versatility and use in different applications such as:
 - Drilling with augers or buckets
 - Execution of drilling casings directly with rotary and by casing oscillator
 - Continuous Flight Auger (CFA)
 - Diaphragm Walls
 - Execution of Double Head drilling

Model name	Category	Max torque (KNm)	Max Diameter (mm)	Max Depth (m)	Weight (ton)
HR 180	BORED PILES	233	1600	60	57 - 60

ADT AFRICA

Drilling & Piling Services

SUPPORT VEHICLES

With rigs in different places across East Africa, ADT recognizes the need for good support and owns a fleet of all wheel drive Landcruiser pickups, site ambulance, 6x6 Bedford truck mounted water bowzers, fuel bowzers and a mobile service truck.

COMPRESSORS

ADT owns a number of compressors of varying sizes from a Bedford truck mounted Ingersoll Rand with 900cfm/350psi to a trailer mounted Sullair at 1100cfm/650psi. Numerous smaller units are also available.

CIVIL WORKS

ADT civil works can provide semi-permanent containerized offices, accomodation or workshop units with pumped and piped water, allowing clients to be on site for their extended projects.

EQUIPMENT AVAILABLE

- CAT 320 Excavators
- CAT D6 Bulldozers
- CAT 140G Road Graders
- DynaPac Rollers
- Tippers (10 ton)

GEOLOGICAL SAMPLES

We provide our clients turnkey Geological field services including Geologist consultancy, logging, core cutting to the supply of core boxes.

ENVIRONMENT, HEALTH & SAFETY

ADT's objective is to promote a working environment where health, safety and environmental awareness are fundamental parts of the corporate culture.

The health and safety of employees, contractors, clients, visitors, and the local communities affected by ADT activities is a key priority.

Employees are responsible for maintaining predetermined health and safety standards and conduct daily "tool box talks" to assess risks and prevent accidents. ADT continues to drive down the environmental risks and impacts of operations by reducing waste, emissions and discharges and by using energy as efficiently as possible.

ADT is committed to;

- Prevention of injury and ill health
- Continued improvement of EH&S management and performance
- Compliance with applicable legal requirements

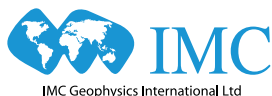

ADT believes happy and healthy employees provide the best results. All employees and contractors are provided with camp facilities when in the field. The camps provide spacious tents for housing, vehicles to run errands, fuel, generator, well-stocked kitchen with company chef, satellite TV, security, laundry and ablution services.
